Subject: About a starter clutch of Harley

Dear sales representative

I get on big twin in Japan.

It is awkward that a one way clutch is broken many times.

I checked websites of the world.

I think whether your [HR-1] is the strongest in the world.

I want to purchase it by all means.

Is the shipment by the mail with a guarantee possible?

Even if additional expenses are necessary, I do not mind it.

I'm sorry if it becomes the rude sentence because I use translation software.

I look forward to an answer from you.
